What is Collaborative Learning?

Examp	les of	Collab	orative	Learning	in	our	Cours	e
LAump	ics or	Coman	oracive	Lear ming		oui	Cours	•

- Simulations
- Inquiry-based learning
- Case studies
- Team lab activities
- Small group discussion.
- Group projects and poster presentations.

Your Turn!

1.	What technological tools do you use to help students prepare for class discussions and group collaboration?.
2.	List concepts in your discipline that can be taught using guided explorations and simulation applets.
3.	What is your favorite active or collaborative learning tool and which technology can be used to facilitate this tool?
